

## UK SUPPLEMENT

relating to the issue of shares of

**Shenkman Credit Fund plc**  
(the "Company")

**Dated 27 July 2017**

**This UK Supplement forms part of, and should be read in conjunction with the prospectuses of the Company dated 23 February 2017 for the sub-funds Shenkman Short Duration and Shenkman High Income Fund and the prospectus for the Shenkman Global Convertible Bond Fund and Shenkman Global High Yield Bond Fund, as supplemented or amended from time to time (the "Prospectus")** References to the "Prospectus" are to be taken as references to that document as supplemented or amended hereby. In addition, words and expressions defined in the Prospectus, unless otherwise defined below, shall bear the same meaning when used herein.

The Company is an umbrella fund with segregated liability between its sub-funds (each a "**Fund**" and together the "**Funds**"). It is an open-ended, variable capital investment company incorporated as a public limited company under the laws of Ireland. In accordance with the UCITS notification procedure, the Company has filed the documents required by Article 93(1) and (2) of Directive 2009/65/EC with the Central Bank and has received confirmation that such documents have been provided by the Central Bank to the UK Financial Conduct Authority ("**FCA**"). Accordingly, the Company constitutes a recognised collective investment scheme for the purposes of section 264 of the Financial Services and Markets Act 2000 ("**FSMA**") of the United Kingdom. As a result, the shares of the Funds (the "**Shares**") may be marketed to the general public in the United Kingdom.

Potential investors should note that the investments in the Shares are subject to risks inherent in investing in shares generally and other securities. The risks associated with an investment in a Fund of the Company are further described in the Prospectus. The value of investments and the income from them, and therefore the value of, and income from, the Shares of each Share Class of such Fund can go down as well as up and an investor may not get back the amount it invests. Changes in exchange rates between currencies may also cause the value of the investment to diminish or increase and, as explained in full detail in the Prospectus, certain Share Classes may be subject to techniques to alter the currency exposure of securities held and to hedge against other foreign exchange risks.

### **Dealing Arrangements and Information**
