Data is average annual total returns. Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Fund performance current to the most recent month-end may be lower or higher than the performance quoted and can be obtained by calling 1-855-SHENKMAN.

The fund imposes a redemption fee of 1.00% on shares held for 30 days or less. Performance data does not reflect the redemption fee. If it had, returns would be reduced.

<sup>^</sup> The adviser has contractually agreed to waive a portion of the fund expenses through January 27, 2025.

**Mutual fund investing involves risk. Principal loss is possible. There can be no assurance that the Fund will achieve its stated objective. In addition to the normal risks associated with investing, bonds and bank loans, and the funds that invest in them are subject to interest rate risk and can be expected to decline in value as interest rates rise. Investment by the Fund in lower-rated and non-rated securities presents a greater risk of loss to principal and interest than higher-rated securities. Diversification does not assure a profit, nor does it protect against a loss in a declining market. The SEC does not endorse, indemnify, approve nor disapprove of any security.**

**The Fund invests in foreign securities which involve political, economic and currency risks, greater volatility and differences in accounting methods. Derivatives may involve certain costs and risks such as liquidity, interest rate, market, credit, management, and the risk that a position could not be closed when most advantageous. Leverage may cause the effect of an increase or decrease in the value of the portfolio securities to be magnified and the fund to be more volatile than if leverage was not used.**

The ICE BofA 0-2 Year Duration BB-B U.S. HY Constrained Index (H42C) consists of all securities in the ICE BofA BB-B U.S. High Yield Index (HUC4) that have a duration-to-worst of 2 years or less. The HUC4 index is a subset of the ICE BofA U.S. High Yield Index (HOA0) that includes all securities in the HOA0 rated BB1 through B3, inclusive. The HUC4 index is unmanaged, not available for direct investment and does not reflect deductions for fees or expenses.
